Blueprint

Php

Profile

I am a software and game developer with a passion for creating innovative and user-friendly solutions and software. I am 2x heckathon winner with experience in developing websites and Desktop applications using various technologies, such as React, React Native, Delphi, Php, Wordpress, C++, Unreal engine with c++, Blueprint, NodeJS/ExpressJS and Python. I enjoy learning new skills and exploring new challenges in the field of website and software development. I am always open to new opportunities and collaborations.

Experience

2023 - PRESENT
Infinity Cybertech

Founder and Chief Technology Officer

- Website and Software development
- System development
- Technological advancements

2021 - PRESENT
Universe 21

Founder and Chief Technology Officer

- Game development
- Writer/director
- VR development

JAN 2025 - NOV 2025
Walter sisulu university

Programming in Java and Data structures tutor

- Object orientated programming
- Testing and debugging
- UI and programming practices

2020 - 2023
GLUE

Senior Software Developer

- Assisted in the development and implementation of software development plans and strategies.
- Website maintenance and development
- Conducted competitor analysis, tracking industry trends and benchmarks.

2017 - 2020
Self Employed

Junior Website and Software developer

- Created dynamic and visually appealing websites using HTML, CSS, JavaScript, and PHP.
- Staying updated with the latest trends, I ensured the websites were responsive and optimized for various devices.
- Managed the entire development process, from client consultations to design, development, testing, and deployment.

Education

• Udemy

Wordpress with PHP
UNREAL ENGINE with C++
REACT / React Native
Node/Express / NextJS
MERN STACK
HTML,CSS,Javascript

• General Smuts Highschool

Matric certificate

2018 - 2020

• University of Pretoria

Bsc Eng Electronic engineering
2021 - 2023

• University of walter sisulu

Bsc Computer science
2024 - 2025

Information about me

✉ nrchinoz49@gmail.com

🌐 www.infinitycybertech.com

I am a highly passionate individual who thrives upon seeking new challenges through my career as a software/website developer. I did Information technology in high school where I discovered my love for coding. I started teaching myself different programming languages and making websites. In university I studied electronic engineering at university of Pretoria for 3 years before deciding focus in making a full time career in software development. In the 3 years in university, I developed server based apps powered by linux. I also developed multiple desktop and mobile software using delphi and c++ builder, later I even went into gaming development with unreal engine. I always motivated to learn new skills and increase my knowledge.

Portfolio

Recent Websites

- Virtual doctor (Virtualdoctor.co.za)
- Universe 21 (universe21.co.za)
- Infinity cybertech (infinitycybertech.com)
- Green Grow (greengrow.co.za)
- Gymsupstation (gymsupstation.africa)
- Findlift (Findlift.co.za)
- 3d words (3dworlds.co.za)

Recent Desktop/Mobile Software

- Glue VP server app, powered using big blue button
- Stock manager using delphi, SQL and python
- Dating mobile app
- PBX Software powered by asterisks
- Walter sisulu Campus Nexus

Recent Game Development

- Cyber Shooter. A 3d action shooter game
- Tanks and Towers. A 3rd person tank shooting game where you have to avoid being shot by towers.
- Escape. A first person game where you have to find the necessary objects to escape.
- To beyond. A 3rd person game based where you to reach to top of temple facing obstacles
- The Search

Interests

- AI
- Software development
- Music and art
- Gaming development
- Website development
- Computer especially Quantum Computers
